## Ground Floor and loft extension

Size: 156m<sup>2</sup>  
Value: £600k approximate  
Status: Completed 2021  
Type: Residential

*Complex setting out for the structural arrangement led to a series of light filled spaces being created*

Careful consideration allowed the roof structures to be formed purely from timber elements with selected joists exposed to give more character to the some of the spaces.

Long strip windows with timber mullions brought plenty of light into the bath suite on the upper level with a long strip of continuous glazing bringing light into the new ground floor rear extension.
