

GROUND FLOOR SIDE EXTENSION

NOW FIRST LIMITED

GROUND FLOOR SIDE EXTENSION

Size: 22m²
Budget: unknown
Status: Completed 2023
Type: Residential

Environmentally sustainable extension with strong connection to the exterior

The project including 'knocking through' to the main part of the house and creating a timber framed structure to the side. Load bearing walls were removed at the corner to give an open feeling to the extension. The structure to support the roof was left visible from the underside to give more character to ceiling of the extension.
